Profile

Aspiring Software Engineer and Machine Learning Enthusiast with hands-on experience in Blockchain (Hyperledger Fabric), Artificial Intelligence, and Full-Stack Web Development. Skilled in data analytics, automation, and technical leadership with a strong academic foundation (CGPA: 9.28) and a passion for building impactful software solutions.

Education

VIT Bhopal University

B.Tech in Computer Science and Engineering — CGPA: 9.28

2023 – 2027

Bhopal, India

Experience

Defence Research and Development Organisation (DRDO)

May 2024 – June 2024

Summer Intern

New Delhi, India

- Engineered a private **Hyperledger Fabric** subnet improving secure data-sharing efficiency by **30%**.
- Configured and tested **5 blockchain nodes** to simulate restricted-network communication.
- Collaborated with **3 senior researchers** to optimize node performance and streamline documentation.

Madhya Pradesh Police

Apr 2024 – May 2024

Student Intern — Cybercrime & Data Analysis Division

Bhopal, India

- Analyzed **1,000+ cybercrime records** to identify fraud patterns and improve detection accuracy.
- Developed **3 automated dashboards** using Python & Excel, reducing reporting time by **25%**.
- Supported financial fraud documentation and contributed to data-driven decision workflows.

Projects

AI-Based Electronic Inhaler | Python, Machine Learning, Sensors

2024

- Developed ML model achieving **92% accuracy** on **200+ sensor readings** for asthma risk prediction.
- Created full pipeline for data preprocessing, model training, and real-time health monitoring.

Real-Time Hospital Resource Detection Web App | MERN Stack

2024

- Built real-time resource tracking platform for **15+ hospitals**, improving data update rate by **40%**.
- Implemented optimized APIs and integrated user, hospital, and admin dashboards.

Carbon Footprint Survey System | Kotlin, MySQL

2024

- Designed Android app collecting **500+ user responses** on energy consumption and sustainability habits.
- Integrated secure database backend for response tracking and analytical insights.

Face Recognition Attendance System | Python, OpenCV

2023

- Achieved **95% detection accuracy** using Haar Cascade for real-time attendance logging.
- Reduced manual attendance effort by **80%** through automated facial recognition workflow.

Technical Skills

Languages: Python, C++, Java, JavaScript, HTML, CSS, SQL

Frameworks/Libraries: MERN Stack, TensorFlow, OpenCV, Node.js, Express.js, React

Developer Tools: Git, VS Code, Android Studio, Jupyter Notebook

Platforms: Linux, Windows

Leadership / Extracurricular

Bit by Bit Club

2023 – Present

Vice President (Former Student Coordinator)

VIT Bhopal University

- Hosted a large-scale coding event with **200+ participants**, boosting club outreach by **50%**.
- Promoted to **Vice President** for excellence in leadership and event organization.
- Organized **3+ technical workshops** on AI, ML, and Web Development to enhance member engagement.

Linpack Club

2023 – Present

Technical Team Member

VIT Bhopal University

- Assisted in robotics and circuit events including *Circuit Sprint*, achieving a **Top 10 finish**.

Advitya Fest 2024

2024

Event Organizer

VIT Bhopal University

- Managed **3 major tech events** including *Cosmic Escape Room* and *Code Tycoon* with **200+ participants**.
